

Gel Print - Collage Class

June 7 & 8, 2025

\$180 + \$20 material fee

On Day 1 participants will experiment with **color, texture, image transfer and layering techniques** to produce colorful, one-of-a-kind papers and then on day 2 they will create a collage using the day 1 papers.

This workshop is **suitable for the absolute beginner**, someone who has never done any form of printing before, to someone looking to learn a new approach.

Materials needed.

Paint - I will provide
Medium - I will supply
Gel Plate - I will supply
Paper Towels - Viva only - I will provide
Paper to gel print on - I will provide

Substrate Paper for collages - choose one type for collage . Substrate paper is a type of printing substrate, or base material, that ink is applied to. Substrates can also be made of cardboard, plastic, fabric, metal, and more.

You need to bring: 2 sheets at 10" square or close in size. Paper below or what you have.

Strathmore Mixed Media Paper, 184 lb or Watercolor paper, 140 or 300 lb hot press, any brand or Strathmore Bristol Paper 100 lb or Stonehenge Paper 90 lb
